Sprint 52

8/20/24

Apr 10 Aug 2024 11:00 AM EDT

Genie

02

What we shipped last sprint

20 tasks completed, 10 highlights

• **Permit permissions for image and video models**

• **Start video generation**

• **Image history in the UI app**

• **Video to GIF conversion app**

• **Model quality with app**

• **Excellent user feedback**

• **Genie Model Expansion**

• **Agent history - prompt editing**

Genie

03

15 tasks, 4 owners, 3 unassigned

Next: Model quality and image model settings, agent reliability and testing, video API

Sprint 52

8 Jul 2024

Aug 1 - 8 Aug 2024

Genie

02

What we shipped last sprint

25 tasks completed. The highlights:

Maya

Per-org permissions for image and video models

Maya

Smart canvas arrangement

Ievgen

Image history in the V2 app

Roi

Video to GIF converter app

Roi

Mask quick edit app

Roi

Download frame as PSD

Eyal

Generic Model Operation

Eyal

Agent latency - prompt caching

Genie

SPRINT 51 - SHIPPED

What we shipped last sprint

25 tasks completed. The highlights:

- Maya

Per-org permissions for image and video models - Control which image and video models each org can access.
- Maya

Smart canvas arrangement - Canvas predicts image size and clusters generations by job.
- Ievgen

Image history in the V2 app - Image history view in the new V2 app UI.
- Roi

Video to GIF converter app - New app that converts a video into a GIF.
- Roi

Mask quick edit app - New app for fast mask-based edits.
- Roi

Download frame as PSD - Export a canvas frame as a layered PSD file.
- Eyal

Generic Model Operation - Run any registered fal model through one generic operation.
- Eyal

Agent latency - prompt caching - Cache the agent clarity prompt, with cache-usage visibility, to cut latency.

Genie

04

Ievgen Bogomolov

4 tasks in sprint 52

Admin API - get all users of an org

Apps by product

Disable auto camera move on generation + completion toast

Track failed agent image generations in Mixpanel

Genie

05

Roi Safran

3 tasks in sprint 52

Images - support all references to image models

Model Caching

Model Caching - full parameter volume for every model

Genie

06

Maya Abend

4 tasks in sprint 52

Integrate multi-reference image generation into the model

Key art

Skills

Genie

07

Eyal Atzmon

3 tasks in sprint 52

Plan reliability benchmarking - implement RLRL

Agent planning phase speed - research

Genie

08

Unassigned in Sprint 52

4 tasks in sprint 52 no assignee

Integrate full GPT image 2 into support via the agent

Add evaluation as an agent operation

GPT support on canvas

Genie

ASSIGNED

Ievgen Bogomolov

4 tasks in Sprint 52

Admin API - get all users of an org

Admin endpoint listing all users of an org, with an option to exclude Genie staff.

● Not set

Apps by product

Generate apps scoped to a specific game - its style, characters, and asset needs.

● Not set

Disable auto camera-move on generation + completion toast

Stop the canvas auto-panning to new results; add a completion toast with Jump there.

● Not set

Track failed agent image generations in Mixpanel

Fire a per-image failure event in Mixpanel, tagged with the reason it failed.

● Not set

Plan video generation - implement RLRL

Agent planning phase speed - research

Genie

08

Unassigned in Sprint 52

A task in the sprint not assigned

Integrate full-GPT image GPT support via the agent

Add evaluation to an agent operation

GPT support on video

Genie

ASSIGNED

Roi Safran

3 tasks in Sprint 52

Fewgen - support all reference-capable image models

Let Fewgen run against any reference-capable image model, not just the fixed three.

● Not set

Model Catalog

A model-first surface to browse any model and generate by hand, no agent involved.

● Not set

Model config - full parameter schema for every model

Store every model's full parameter schema from fal and validate requests against it.

● Not set
