SPRINT 53 - SHIPPED

What we shipped last sprint

7 tasks completed. The highlights:

Ievgen

Track failed agent image generations in Mixpanel

- New Mixpanel event fires per failed agent image, visible before a customer reports it.

Maya

FewGen multi-reference: wrong images stitched into the mosaic

- Fixed the mosaic builder to stitch exactly the references a user attached.

Dor

Image Remix - 12 input images + preview label update

- Image Remix takes 12 input images, up from 6, plus a clearer preview label.

Roi

Multi chats per board

- A board now holds several isolated chats on one shared canvas, with a switcher.

Dor

New apps - Erase

- Brush out an unwanted element on an image; the model rebuilds the background.

Eyal

"Generation started" toast on every canvas placeholder

- Fires on every placeholder from Agent, Apps, and Models, matching the 'Done' toast.
