NOT LIKED

Agent reference handling

Six studios now. Uses an earlier image, not the selected one.

Change Camera preview

Bingo, 23 Jul. No preview before generating, unpredictable.

Model selection clarity

Bingo, WSOP, Slotomania. Hard to tell which model is active.

Canvas navigation

WSOP, BebopBee, Innplay, Bingo. Zoom, pan, copy boards.

Proportion distortion

Bingo, 23 Jul. Same prompt works in RunDiffusion, not here.

Bugs

1 **Agent generates from the wrong reference**

Six studios, 9+ reports. Notion 3622 (mosaic) opened High priority, Not Started.

2 **Generations fail after a 10 to 15 minute wait**

Slotomania, three days running, 16 July. Limiting results to 6 did not help.

3 **Upscale and resize return the wrong resolution**

2x on a 1K image stays 1K. Direct resize gives 4K pixel dimensions with about 1K of detail.

4 **Generations disappear from the canvas on refresh**

They stay in the chat only. Notion 3453 was closed as Done, Playtika reported it again 9 July.

5 **Boards fail to open entirely**

Multiple boards errored, log out/in did not help. 3 reports, 24 Jun to 22 Jul.

Feature requests

1 **Model dropdown in chat and image remix**

Bingo also asked, 23 Jul, for a visual selector. Notion 3623 already in Planning.

2 **Send the prompt without the LLM rewriting it**

Slotomania, 15 July. Tetiana and Denis want their full prompt left untouched.

3 **Wheel zoom, space pan, copy between boards**

WSOP, BebopBee, Innplay, Bingo. 5 reports, 29 Jun-23 Jul. Bingo wants Ctrl+C/V too.

4 **Copy a prompt from Image History, save presets**

Slotomania asked again 22 July, plus resend-with-edit on canvas actions.

5 **Reference reordering and drag-swap in Remix**

Bingo (Alina), 23 July. Number and reorder references - they have this in Boss.

Decide this week: ship the model dropdown in Planning, or reference reordering - Bingo asked for both.
